

Smart Cities Track FIWARE Summit Utrecht

Join the selected club of front-runner smart cities moving from vision to execution:

- Unleashing the potential of Right-time Open Data
- Enabling the Data/API Economy

Utrecht, Netherlands
Media Plaza | Jaarbeurs

29th-31st May

fiware.org/summit/2017/

Smart Cities Track

- **Understand the vision**
- **Listen the testimonies of cities and smart city solution integrators**
- **Get updated on current collaboration initiatives**
- **Learn about plans under way**

Joint TM Forum / FIWARE Foundation workshop

- **Explore** the proposed journey for front-runner Cities developing the City as a Platform concept:
 - Breaking information silos, building upon a holistic view of the City
 - Moving from Open Data to Right-time Open Data
 - Partner with others in enabling the Data Economy
- **Discover** the opportunities to collaborate with other cities:
 - Contribute to the specification of common information models
 - Join the Lab where replication of third-party solutions from startups/SMEs can be tested
- **Learn** how your city will be promoted as success story
 - Presence at relevant Smart City events
 - Joint marketing by TM Forum and FIWARE Foundation

Come and join us!
