Accelerate definition and design of digital ecosystems with your customers

The success of your communication service provider customers is no longer only based on their service and network excellence. Now more than ever, CSPs need to extend into partnerships that deliver new capabilities and opportunities through digital ecosystems and platform-based business models. As their supplier, by co-creating solutions and spotlighting what you bring to the table, you can show your value in this complex new digital business environment.

**Your Challenges:**

- You are missing business opportunities
- You need to spend extraordinary effort to capture your customer's needs
- You overspend on sales and business development
- You struggle to reduce errors in IT/implementation handovers from the business team
- Defining and maximizing your customer's value in ecosystem opportunities and demonstrating how you enable that value
- Untangling complex ecosystem products and services that require input from multiple internal and external parties while becoming a larger part of the total solution
- Complexity of ecosystems means exponential complexity in working with customers and prospects
- You are constantly reworking requirements with your customer as new decisions are made around business models
- You are constantly reworking requirements with your customer as new decisions are made around business models
- You are constantly reworking requirements with your customer as new decisions are made around business models
- Defining and maximizing your customer's value in ecosystem opportunities and demonstrating how you enable that value
- Untangling complex ecosystem products and services that require input from multiple internal and external parties while becoming a larger part of the total solution
- You overspend on sales and business development
- You struggle to reduce errors in IT/implementation handovers from the business team
- Defining and maximizing your customer's value in ecosystem opportunities and demonstrating how you enable that value
- Untangling complex ecosystem products and services that require input from multiple internal and external parties while becoming a larger part of the total solution

**CurateFx will help:**

- Inserting yourself into new Business Models
  - Defining and maximizing your customer’s value in ecosystem opportunities and demonstrating how you enable that value
  - Untangling complex ecosystem products and services that require input from multiple internal and external parties while becoming a larger part of the total solution

- Clear Requirements Definition
  - Capturing detailed and prioritized business requirements and project scope for ecosystems
  - Obtaining perspectives of multiple stakeholders in reasonable timeframes

- Customer Relationships
  - Complexity of ecosystems means exponential complexity in working with customers and prospects
  - You are constantly reworking requirements with your customer as new decisions are made around business models

- Time to Market
  - Enabling your customers to keep up with market speed
  - Providing rich yet easily understandable information to customers that enables rapid decision making

**Define business scenarios, ecosystems, products and services**

Co-create new business models through the built-in methodology, best practice guidance and visualization tools that accelerate the capture of your customer’s concepts

**Design with the power of proven TM Forum blueprints behind you**

Clearly define the roles of ecosystem stakeholders and map their multifaceted relationships with the Ecosystem Designer purpose-built interface

**Scope projects using proven Frameworx models**

Industry leading Frameworx and Open APIs are integrated into the tool, allowing IT and business to clearly capture and assign ownership of requirements

**Collaborate inside and out**

The key to effective collaboration is flexibility which is why CurateFx can be used simultaneously by your team and your customer’s team including stakeholders outside of your customer’s organization

**Potential value to your company:** (Industry verified)

- **10-70%** Faster ecosystem definition
- **20-30%** Reduction in time to agreement among stakeholders
- **10-30%** Decrease in IT rework through clear requirements definition
